

MiniUPS 10KmAh

Lithium-ion DC UPS (No-Break)

Capacity: 18WATTS

Lithium-ion DC UPS (No-Break) provides extensive backup and reliable power for routers, modems, IP cameras and more devices operating on direct current.

More than 5 years of useful life

Hours of backup during power outages

Connection POE 15/24V

USB-type A 5V/2A charger

DC 5,9,12V output for various devices

Powerful 10K mAh lithium-ion battery

FEATURE:

- Output connectors: 5V/2A - 9V/1A - 12V/1A
POE 15V/0.6A o 24V/0.6A
- 10400mAh lithium ion battery
- USB port 5V/2A
- 15V/24V voltage selector

PROTECTION:

- Power 18W
- Input 100-240Vac/50-60Hz

MiniUPS 10KmAh

Lithium-ion DC UPS (No-Break)

This innovative DC UPS provides extensive and reliable power backup for routers, modems, IP cameras and more devices operating on direct current. It is designed for critical applications such as data processing and telecommunications equipment.

Take advantage of the power and reliability of the future with the UPS Mini UPS10KmAh is the perfect solution to keep your devices running without interruptions!

- ① Reset button for POE
- ② Ethernet output interface (POE output: 15V /24V)
- ③ Ethernet LAN interface
- ④ Output voltage selector for POE (15V /24V)
- ⑤ USB output port (5V, 2A)
- ⑥ DC5V output port
- ⑦ DC 12V output port
- ⑧ DC 9V output port
- ⑨ AC power input
- ⑩ On/off switch
- ⑪ Status indicator
- ⑫ LED battery capacity indicators of 25%,50%,75%,100%

| CAPACITY | 18W |
|-------------------|--|
| INPUT | |
| Voltage | 100-240Vac |
| Frequency | 50 - 60 Hz |
| OUTPUT | |
| Output connectors | USB 5V/2A CC 5V/2A CC 9V/1A CC12V/1A POE 15V/0.6A o 24V/0.6A |
| Output power | 18W |
| Battery | 10400mAh |
| Temperature | 0°C - 45°C |
| Humidity | 10% - 90% |
| Dimensions | 186 * 114 * 37mm |
| Weight | 0.4Kg |

*Backup time calculated based on conventional devices
