Monitoring Software**

## UPSilon 2000 Monitoring Software Installation Manual

**Step 1.** We enter the [www.cdpenergy.com](http://www.cdpenergy.com)

**Step 2.** In the upper right we select in Downloads, then select Software and download according to the UPS model.

**Step 3.** Once the software is downloaded as seen in the image below, we proceed to run the file called setup.

**Step 4.** In the customer information section we enter the username (it can be the one you want), serial number is the one that comes in the envelope of the CD or in case of not having the CD you can use the serial number shown in the image below

The screenshot shows the 'UPSilon 2000 Setup' window with the title bar 'UPSilon 2000 Setup' and a close button. The main heading is 'Información del cliente' (Customer Information) with a sub-instruction 'Introduzca su información.' (Enter your information.). Below this, a text box says 'Introduzca su nombre, el nombre de la empresa para la que trabaja y el número de serie del producto.' (Enter your name, the name of the company you work for, and the product's serial number.). There are three input fields: 'Nombre de usuario:' (Username) with 'Default', 'Nombre de la empresa:' (Company name) with 'Chicago Digital Power', and 'Número de serie:' (Serial number) with '2WVMJEKX' and '3BUMJ4VN'. At the bottom left is the 'InstallShield' logo. At the bottom right are three buttons: '< Atrás' (Back), 'Siguiete >' (Next), and 'Cancelar' (Cancel). The 'Siguiete >' button is highlighted with a dashed border.

**Step 4.1** Press on the next button

The screenshot shows the 'UPSilon 2000 Setup' window with the title bar 'UPSilon 2000 Setup' and a close button. The main heading is 'Elegir ubicación de destino' (Choose destination location) with a sub-instruction 'Seleccione la carpeta en la que el programa de instalación instalará los archivos.' (Select the folder where the installation program will install the files.). Below this, a text box says 'El programa instalará UPSilon 2000 en la carpeta siguiente.' (The program will install UPSilon 2000 in the following folder.). Another text box says 'Para realizar la instalación en esta carpeta, haga clic en Siguiete. Para hacerlo en otra carpeta, haga clic en el botón Examinar y seleccione otra.' (To perform the installation in this folder, click on Next. To do it in another folder, click on the Examinar button and select another.). There is an input field for 'Carpeta de destino' (Destination folder) with the text 'C:\Program Files (x86)\MegaTec\UPSilon 2000' and an 'Examinar...' (Browse...) button. At the bottom left is the 'InstallShield' logo. At the bottom right are three buttons: '< Atrás' (Back), 'Siguiete >' (Next), and 'Cancelar' (Cancel). The 'Siguiete >' button is highlighted with a dashed border.

**Step 5.** At the end of the installation a sale like the one shown below will appear, click on the Install button.

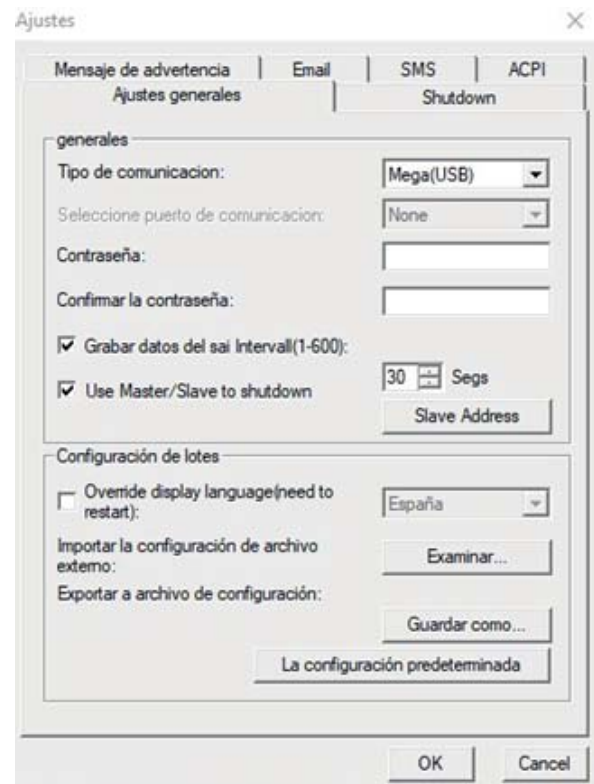

**Step 6.** Once the monitoring software is installed, we open the program (an icon of the software may not appear on the desktop of the computer, in this case in the search button and then in the search engine we place the name of the program "UPSilon")

**Step 7.** In the option called Settings we enter and then a window appears like the one shown in the image below. In the option of General Settings, Types of communication we must select the option called "Mega(USB)".

We press a click on the button at the bottom called "ok" to save the changes.

**Paso 8.** Then a window will appear indicating that the UPS is connected. In this step the UPS is ready to be monitored through the software.
